

Carrier Access Point with 4-Band Support for Low Power CEL 900, DCS 1800 MIMO, and IMT 2100 Applications, Fiber Fed, External DC Powered, without Fan Kit

OBSOLETE

This product was discontinued on: June 29, 2024

### Product Classification

|                |              |
|----------------|--------------|
| Product Type   | Access point |
| Product Brand  | ERA®         |
| Product Series | CAP L        |

### General Specifications

|               |                                                                                                 |
|---------------|-------------------------------------------------------------------------------------------------|
| Fan Kit       | Not included                                                                                    |
| Fed Type      | Fiber fed                                                                                       |
| Note          | Detailed Product Specifications are available. Please contact your local ANDREW representative. |
| Power Class   | Low                                                                                             |
| Powering Type | External DC powered                                                                             |

### Electrical Specifications

|               |                               |
|---------------|-------------------------------|
| License Band  | CEL 900   DCS 1800   IMT 2100 |
| Voltage Range | -60 to -36 Vdc                |
